# Table of contents

# Use case 01 An actor who is not authenticated must be able to Register to the system as a customer.

## Description

An unauthenticated user registers to the system as a customer. The user fills the form and save it.

## Access

Main menu > Register actor menu option > Register customer.

## Tests

| Test 1.1 | |
|---|---|
| **Description** | The form must be filled in with the following data:<br>**Name:** CustomerTest<br>**Middle Name:** CustomerTest<br>**Surname:** CustomerTest<br>**Photo:** http://www.google.com<br>**Email:** customertest@us.es<br>**Phone Number:** 639521012<br>**Address:** Calle Test<br>**Username:** customerTest<br>**Password:** customerTest<br>**Confirm password:** customerTest<br>Then, check 'Terms and conditions' and 'Data processes' checkboxes and press 'Save' button. |
| **Expected** | The system must return to the Welcome page.<br><br> |
| **Outcome** | If I click on 'Register customer' menu option, the system returns me to 'Register trainer' form. |
| **Notes** | |

| Test 1.2 | |
|---|---|
| **Description** | *The form must not be filled with any data. That's save the form with all the fields empty.* |
| **Expected** | *The system must return to the same page with the followings errors:* |

* Requested Fields.

Personal Information

Name *: [                    ] **Must not be blank**

Middle Name: [                    ]

Surname *: [                    ] **Must not be blank**

Photo: [                    ]

Email *: [                    ] **Invalid email pattern**
**Must not be blank**

Phone Number: [ +34 111 654654654 ]

Address: [                    ]

User Account Information

Username *: [                    ] **Must entry a username.**
**Size must be from 5 to 32**

Password *: [                    ] **Must entry a password.**
**Size must be from 5 to 32**

Confirm password *: [                    ] **Must entry a confirm password.**

Authority [ CUSTOMER ]

☐ I'm agree with Terms and conditions **Must agree terms and conditions**

☐ I'm agree with Data proccesses **Must agree data processes**

| **Outcome** | *If I click on 'Register customer' menu option, the system returns me to 'Register trainer' form.* |
|---|---|
| **Notes** | |

## Use case 02 An actor who is not authenticated must be able to Register to the system as a trainer.

*Description*
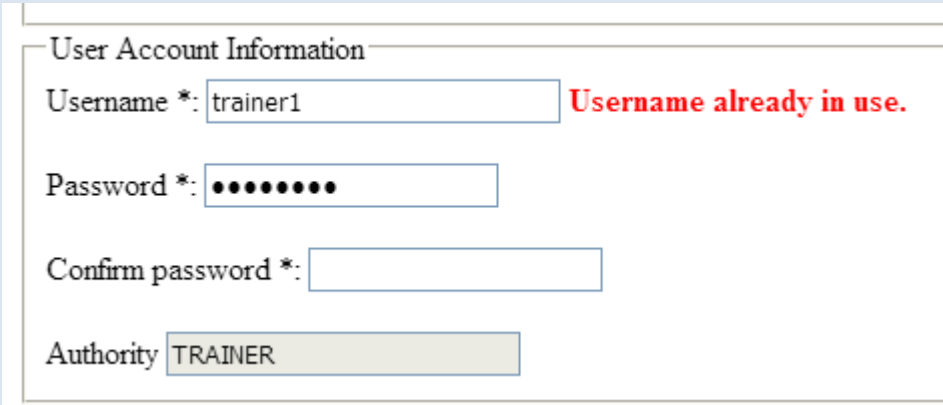

*An unauthenticated user registers to the system as a trainer. The user fills the form and save it.*

*Access*

*Main menu > Register actor menu option > Register trainer.*

*Tests*

| Test 2.1 | |
|---|---|
| **Description** | *The form must be filled in with the following data:*<br>**Name:** *TrainerTest*<br>**Middle Name:** *TrainerTest*<br>**Surname:** *TrainerTest*<br>**Photo:** *http://www.google.com*<br>**Email:** *trainertest@us.es*<br>**Phone Number:** *639521012*<br>**Address:** *Calle Test*<br>**Username:** *trainerTest*<br>**Password:** *trainerTest*<br>**Confirm password:** *trainerTest*<br>*Then, check 'Terms and conditions' and 'Data processes' checkboxes and press 'Save' button.* |
| **Expected** | *The system must return to the Welcome page.*<br><br> |
| **Outcome** | *Expected results and outcome are the same.* |
| **Notes** | |

| Test 2.2 | |
|---|---|
| **Description** | We are going to register a trainer with a username already used. The form must be filled in with the following data:<br>**Name:** TrainerTest<br>**Middle Name:** TrainerTest<br>**Surname:** TrainerTest<br>**Photo:** http://www.google.com<br>**Email:** trainertest@us.es<br>**Phone Number:** 639521012<br>**Address:** Calle Test<br>**Username:** trainer1<br>**Password:** trainerTest<br>**Confirm password:** trainerTest<br>Then, check 'Terms and conditions' and 'Data processes' checkboxes and press 'Save' button. |
| **Expected** | The system must return to the same page with the followings errors:<br><br>User Account Information<br>Username *: trainer1 — **Username already in use.**<br>Password *: ●●●●●●●<br>Confirm password *:<br>Authority TRAINER |
| **Outcome** | Expected results and outcome are the same. |
| **Notes** | |

# Use case 03 An actor who is authenticated must be able to: Edit his or her personal data.

## Description
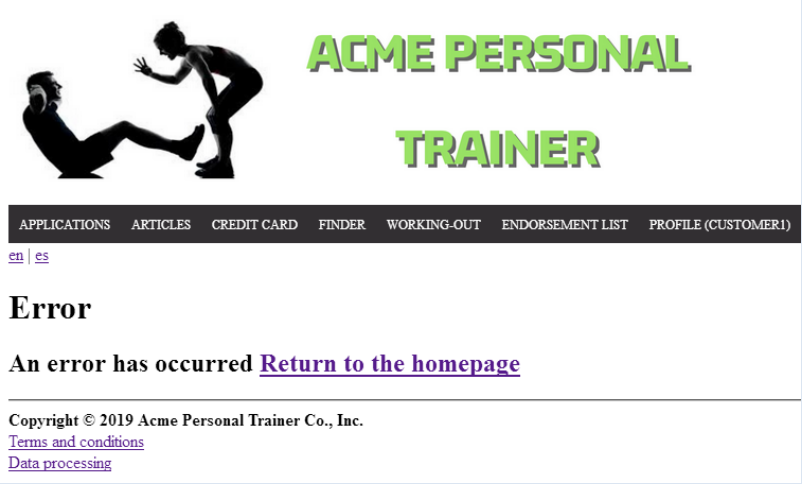

An authenticated user edits his/her personal data. The user displays the profile, access to edit personal data form and updates any field, finally save it.

## Access

Main menu > Login form > Fills login form with customer1/customer1 > Display profile menu option > Edit personal data link.

## Tests

| Test 3.1 | |
|---|---|
| **Description** | In the form we display, we have to update the field called 'Address' with the following data:<br>**Address:** Calle Test<br>Finally press 'Save' button. |
| **Expected** | The system must return us to the profile of the actor with the updated information.<br><br>Personal Information<br><br>**Full name:** Customer1 customer<br><br>**Email:** customer1@gmail.com<br><br><br><br>**Photo:**<br><br>**Phone Number:** +34 630417654<br><br>**Address:** Calle Test<br><br>Edit Personal Information<br><br>Export data |
| **Outcome** | Expected results and outcome are the same. |
| **Notes** | |

| Test 3.2 | |
|---|---|
| **Description** | *In the form we display, we are going to try to edit the personal information of other customer stored in the system. To do this, we have to paste the following url in the browser:*<br>*localhost:8080/Acme-Personal-Trainer/actor/administrator,auditor,customer,nutritionist,trainer/edit.do?actorId=13677* |
| **Expected** | *The system must return us to an error page.*<br><br> |
| **Outcome** | *Expected results and outcome are the same.* |
| **Notes** | |

# Use case 04 An actor who is authenticated must be able to exchange messages with other actors and manage them, which includes listing, showing, sending and deleting them.

## Description

*An authenticated user sends a message and lists his or her sent messages. The sent messages are in out box.*

## Access

*Main menu > Login menu option > Fill the form with trainer1/trainer1 > Profile menu option > Box list > "Send a new message" link.*
